

## European Type Wall Plate and Module

The European type wall plate is made of 94V0 with outside dimension 80 x 80mm. The clip on assembly design of wall plate frame and modules is easy for installation and maintenance. 1-, 2- & 3-port wall plate modules are with angled opening, this advantage the cable bending after Keystone Jack installation.

### Ordering Information

#### European/German Wall Plate & Bracket

Part No.	Description
